**COVER MESSAGE**

Dear Patricia

I have attached the applicant's proposed claims for this application. As I indicated during our earlier telephone conference we were preparing a set of claims for this case, which were under review by the applicant at the time you issued an Office Action.

I am currently in Baltimore, Maryland, and would like to have a personal interview to discuss these claims and, if possible the continuation application claims as well.

Please get back to me on a date for next week, if possible. Thank you in advance.
